

# tatianavoegerl.portfolio.com

This professional portfolio will allow job recruiters, software developers, and other industry professionals to learn about my experience and skills.

My professional portfolio will showcase all my experience both in industry and at school. The website will include additional details beyond what can be found on my resume. In addition, by presenting the information that can be found on my resume in a more unique way, I am hopeful that it will allow recruiters to remember me more. Lastly, the website will include a contact page for potential employers to reach out with ease. The primary goal of this website is to allow potential employers to learn more about me in more detail than would be possible through a resume as well as make me stand out and allow me to show off some of my experience with web development.

## PERSONAS

### Industry Recruiter

Recruiter trying to find potential new hires that are a good match for their company.

### Hiring Manager

Hiring Manager trying to learn more about me before making a hiring decision.
